## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by “Netscape Publishing System, Merchant System and Community System Enable Creation of Large-Scale Commercial Enterprises on the Net” (hereinafter Merchant System).

Merchant System teaches a family of turnkey software application that enables companies to conduct full-scale electronic commerce on the Internet (lines 2-3).

Merchant System further teaches that by integrating the key capabilities (functions) needed to run nationwide or global business - - such as real-time credit card authorizations, high-volume transaction processing and data management - - these applications allow organizations to create innovative, large-scale commercial enterprises on the net today (lines 15-17).

Merchant System goes on to teach that Netscape Merchant System enables large retailers or merchants to create and manage virtual shopping malls. The system provides shoppers with a user-friendly interface that lets them browse or make multi-level queries to view specific products available in the marketplace. The software incorporates an electronic shopping cart, allowing customers to hold items so that they can purchase them at one time, even if the products are from multiple merchants in the mall. It allows the

merchant to select multiple billing options such as cyclical billing, and provides order processing with options for payment, shipping and deliver (lines 29-34).

***Conclusion***

Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. "Distributed Virtual Malls on the World Wide Web" includes a study by IBM on virtual malls on the web.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
